MEMORANDUM FOR: Director of Central Intelligence

FROM:

25X1

1. Following issuance of SIG-I Directive No. 1 and your covering memo on 5 August 1982, the following actions have occurred toward formation and activation of the IG/CI and the IG/CM:

- Director, FBI has designated Ed O'Malley as Chairman of the IG/CI. The names of members and alternates submitted as of this date are listed at attachment 1.
- The Deputy Secretary of Defense has designated General Richard G. Stilwell as Chairman of the IG/CM. Members and alternates named to date are listed in attachment 1.
- Ed O'Malley has issued a data call for contributions to the IG/CI study on Limitations on the Hostile Foreign Presence in the United States. The study terms of reference is at attachment 2.
- An initial meeting of the IG/CI has been tentatively set for 30 August 1982 to discuss the Limitations Study.
- Mr. O'Malley is scheduled to provide initial data and a status report on the Limitations Study to you at 1000 hours, 7 September, in order that you can furnish a status report when you meet with the PFIAB on 8 September.
- General Stilwell is preparing for an early meeting of the IG/CM, probably at the end of August or early in September. He intends to identify certain initiatives drawn from the NSSD-2 report which will become the subject of tasking to individual members or ad hoc working groups for development of reports over the next one to three months.
- The Community Counterintelligence Staff, as the permanent secretariat for the IG/CI and the IG/CM, is working with both Chairmen to develop agendas and make arrangements for the planned meetings.

2. Issues and Concerns have arisen as a result of the directive establishing the IGs and the initiation of work. Briefly noted, these are:

- Several subjects, such as Technology Transfer, involve both the IG/CI and the IG/CM. To avoid undesirable overlap or redundancy, this office as the IG Secretariat will ensure necessary coordination between the two groups.
- [redacted] Chairman of the DCI Security Committee, expressed concern about the work of his Committee being subsumed by the IG/CM, particularly in view of OSD chairmanship. [redacted] has proposed that [redacted] be accorded observer status on the IG/CM in order that the Committee and the IG/CM will work in a coordinated manner and avoid mutual interference.
- In regard to the Limitations Study being undertaken by the IG/CI, State INR has expressed major reservations on behalf of the State Department. Reportedly, State sees no major problem with limitations on Soviet and Cuban presence, but does see major problems with East European and PRC limitations because of foreign policy considerations. INR officers are scheduled to meet with FBI officers on 23 August to discuss State concerns.
